

Flower Essences

For Pets and Their People

1. What are flower essences and how can they help my pet?

These herbal infusions help to awaken your pet's happiness and well-being and correct behavioral issues.

2. How do I give them to my pet?

One drop in the fresh morning water bowl; and dropped on the fur, feathers, or scales twice daily.

3. How do I know what to choose?

Pear is a good "first essence" that can clarify what is needed next. Then identify your pet's issue/s and try the corresponding essence/s.

4. Are flower essences safe for animals?

Absolutely. There is no possibility of overdosing, contraindications, or side effects.

5. Can they be used with other supplements?

Yes, because they work vibrationally, not biochemically, and can complement other products, therapies, and treatments.

6. How long should I keep my pet on an essence?

One to 2 weeks is standard when used singly; or until you see a positive, stabilized behavioral change.

7. How can I learn more?

Visit www.Spirit-in-Nature.com for our Pets and Animals Home Study Course, *Flower Essences for Animals* (softcover, also free online) posters, online educational materials, videos, webinars, blogs, and more!

Spirit-in-Nature Essences is the oldest flower essence firm in North America. Well researched and time-tested, they have been assisting pets, people, and plants since 1977. *We wish you and your pet perfect well-being.*
